

End the wounded veteran tax

- ★ Combat-injured veterans medically retired before 20 years of service are denied their full retired pay because they also receive VA disability compensation.
- ★ The clean, standalone Major Richard Star Act ends that offset for about 54,000–60,000 veterans, without cutting anyone else's benefits.
- ★ Ask your representative and senators to pass it. Scan the code to find yours and see where they stand.
